PROJECTS

InternMate — *Internship Locator*

Takes students input and information to search all over for companies that offer internships that best matches their future goals. Organizes all search results into SQL databases to easily relocate opportunities found. Handles errors that occur when information is not available without specific verification.

Web Design — *Static Website*

Formatted and styled client information into a working static webpage. Properly sized page to work on multiple screen sizes. Made multiple layout styles giving client options to pick from.
